

limits.

Duration: 2021 - 2023 Principal Researcher Alejandro Leiva Arcas CI&DEI's Principal Researcher Antonino Pereira **Team Members** Franscisco Mendes Abel Figueiredo **Funding ERASMUS+ Research Line:** Education, Citizenship and Inclusion more The Para-Limits project aims to enable high-level sportsmen and women with any kind of disability to successfully complete their sports and university careers without undermining one over the other. The name Para-Limits refers to

those high-level athletes, Paralympics included, who seek to break down barriers and display their talent without

622213-EPP-1-2020-1-ES-SPO-SCP \mid [Para-Limits] Dual Career of Student-Athletes with Disabilities as a Tool for Social Inclusion \mid 2

The overall aim of Para-Limits is to contribute to the existing EU policies on social inclusion through the promotion of Dual Career for high level athletes with disabilities. The goal is to design a comprehensive solution that can be implemented with low cost and effort in different member countries of the European Union in order to achieve the effective integration of this population group and to eliminate the barriers that prevent them from developing a successful university and sports career.
